PLANS FOR SCHOOL IN SOUTH MEMPHIS READY

Plans for the Ford N. Taylor school, a new county educational building which will be erected in New South Memphis are now in the hands of architects and will be ready for contractors by Jan. 1 when bids will be opened.

Mahan & Broadwell are working on the blueprints which will call for the latest model school building. The structure will be of brick and hollow tile and fireproof. There will be 10 rooms and an auditorium of 400 seating capacity in addition to a basement and other small apartments. It will be modeled after the county school located at Whitehaven, which has been inspected by many educators and pronounced one of the best types of buildings for this purpose. The cost of the building will be in the neighborhood of \$55,000.

Through the efforts of the New South Memphis property has been donated. According to George Mahan it is an ideal site.

"ESSEX"

The World's Finest Light Car

"Some Car!"

In selling an Essex Roadster to the Rochester Fire Department, which heretofore had used eight-cylinder cars exclusively, the car was put to this test. Driven along at five miles an hour in high speed, the hand throttle suddenly was opened to its fullest extent. In exactly 13 seconds the speedometer registered 31 miles an hour. In 30 seconds it registered 46 miles an hour.

Acceleration and flexibility are only two of Essex superior qualities. Have you ridden in an Essex?
